

Part # 1016764
 QC - Canoe / Kayak Rack (Pair)

1. Attach QC accessory bracket to QC vertical bumper bracket weldment using hardware from QC accessory bracket 3/8 x 1 carriage bolts and 3/8 flange nuts.
2. Attach QC vertical bumper bracket to slider leg (at desired height) using 3/8 x 1 carriage bolts and 3/8 flange nuts.
3. Attach QC canoe / kayak rack arm to slider leg using 3/8 x 1 carriage bolts and 3/8 flange nuts (set to desired height before tightening nuts).
4. Slide the caps onto top and bottom of slider leg and on end of QC canoe / kayak rack arm.
5. Attach QC canoe / kayak rack to dock using accessory bracket, space racks apart so the racks are towards the end of the canoe or kayak.

Note: Use a bungee cord to secure canoe or kayak to rack. Use the holes in the bottom of QC canoe / kayak rack arm to secure the bungee cord.

Note: Arm is 32" long and has about 36" of vertical adjustment.
